

What's New?

AUDIO FEATURE

The new audio feature on our apps is the best we have seen on the market! Makes communicating, learning, and setting reminders that much more enjoyable. And enhances memory, building from the ground up.

LOGIN

Our Login and Logout feature has changed. When you login, you will now see your login credentials in the top left corner of the screen. As long as you are logged in, our auto save feature saves your work continually.

COLLABORATION, SUPPORT, AND UNDERSTANDING

There are so many cool ways to use BRIDGE Communication and BRIDGE Communication Builder apps, it's hard to know where to begin when blogging about them. I love where these apps can take us, but it's important to realize and know where to begin as well. [Read more..](#)

FEATURED BOARD: PROBLEM SOLVING

The PROBLEM SOLVING board is part of a JOB SKILLS board set originally designed for students in a [work program designed for students age 18 - 22](#). Development of PROBLEM SOLVING skills promotes a growth mindset and its importance is documented for [children in general](#) and [individuals with disabilities](#). For the adults we support in job-readiness and work programs, strengthening PROBLEM SOLVING skills is particularly beneficial to develop to help keep a job, address safety concerns at the job site, as well as potential issues that may arise when traveling to and from work. The [BRIDGE Communication Builder app](#) was used to create this board. As with all BRIDGE Communication app boards, the PROBLEM SOLVING board can be easily edited to customize for individual needs.
