

What's New?

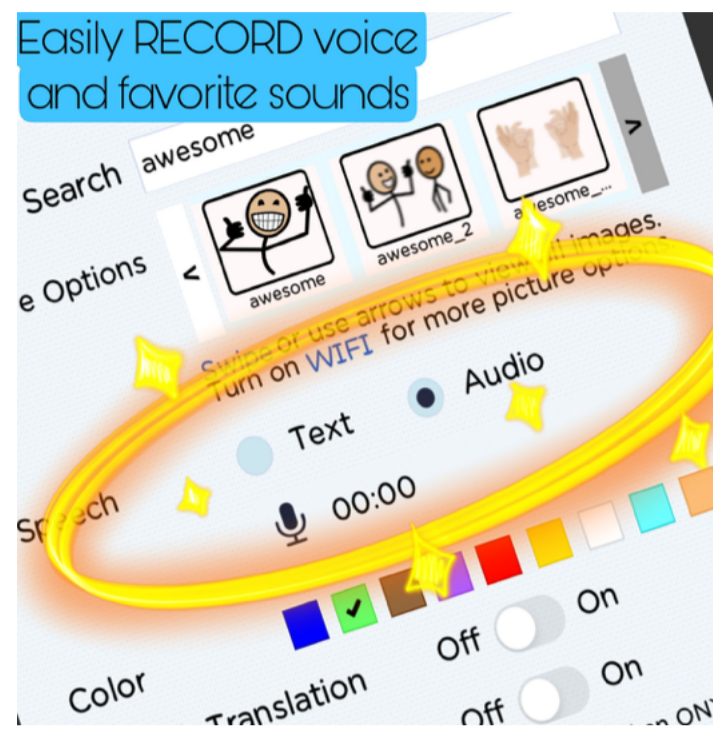

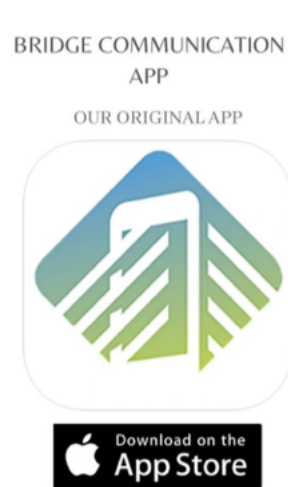

We hope you are enjoying your summer!

For many of us, summer is a time for rest and rejuvenation. As the start of a new school year approaches, we'd like to fill you in on exciting changes we've made to our apps. These changes were made in response to feedback from users like you.

As our updated **About** page on our **website** states, our goal from the inception of the BRIDGE Communication app is daily enjoyable use of our apps.

As always, we appreciate your feedback, and are happy to help.

Drop us a line! support@gobridgeapp.com

THE 2 BRIDGE COMMUNICATION APPS – HOW DO THEY DIFFER?

BRIDGE COMMUNICATION APP:

- 1,200 preloaded vocabulary items, phrases, sentences
- 2,800 preloaded word, phrase, sentence articulation folder
- Download for \$19.99 on the App Store

BRIDGE COMMUNICATION BUILDER APP:

- Blank boards - **Building boards based on individual needs.** For some individuals, a field of 1 or 2 is a good starting point. For others, a customized set of boards can be created. Starting with a blank slate sparks creativity - including vision boards, habit trackers, boards to support loved ones with dementia.
- Download for \$9.99 on the App Store

VOICE MODELING & MONITORING. RECORD A MESSAGE. SING A SONG. TELL A JOKE.

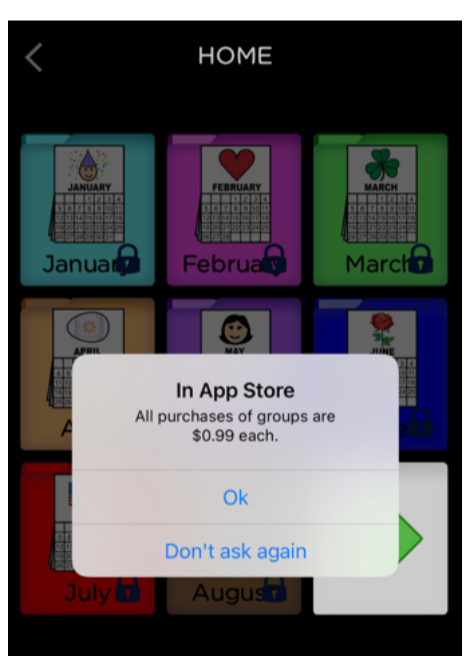

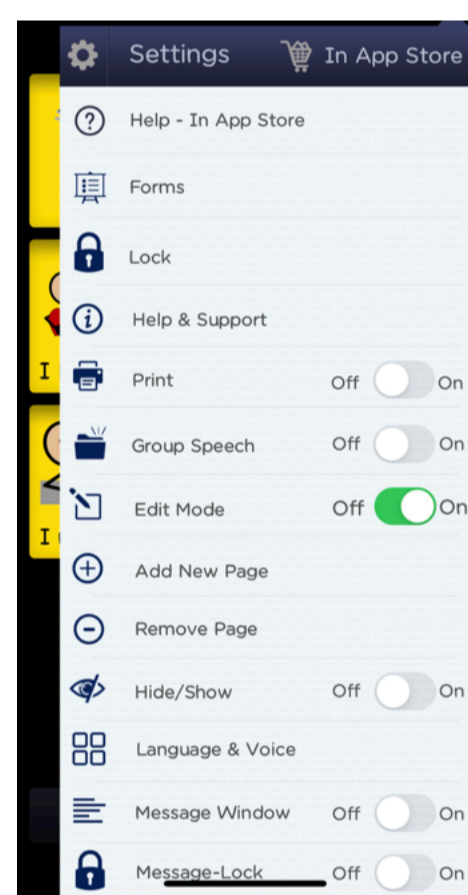

In Newsletter #4 (MAY 2022) we announced our new **AUDIO FEATURE** which allows users to record voices onto our apps. Voices can be recorded by teachers, SLPs to provide modeling of language. Student/client voices can be recorded to provide audio feedback and monitor progress. How cool would it be for a parent to hear their child's language progress on the app?

When this feature was shown recently to a mom, her idea was to create tiles with words of encouragement for her daughter to access during the day: "You can do it!" "We're proud of you!" "We love you!" "Can't wait to see you when you come home from school!" Songs can be sung and jokes recorded to add cheer and love to one's day. Another tool to use in creating customized boards to serve individual needs.

SAY MORE WITH LESS

Ever wonder why or how children develop language? It starts with exposure, a lot of exposure. Exposure based on interests. Consistent exposure based on shared experiences, that both parties are attending to fully. Attention, exposure, and growing awareness. I enjoyed the descriptive breakdown from a helpful article by The Hanen Centre about ways to build vocabulary: [Read more...](#)

IN APP STORE

In the past, users have manually constructed boards, as shown in this [video tutorial](#) on making the "FUN WAYS TO SAY HI" board group. With our new IN APP STORE feature users can now purchase groups of boards for 99 cents. Board groups can be purchased and installed on both the BRIDGE Communication Original app and the BRIDGE Communication Builder app. Check out this [YouTube](#) to see a brief example of how this is done!

Once board groups are purchased, they are highlighted, indicating they can be copied and placed on any tile in the app. The sample photo above on the right indicates that the FUN WAYS TO SAY HI and DAD JOKES board sets have been purchased. Purchase board groups for 99 cents.

Tune in for more details in how to the In App Store in our next Newsletter.

Stay connected

We release [OUR NEWS](#) regularly, and make frequent posts on our [BLOG](#).

And as always, reach out ~ we're happy to help!
